Bangkok, 7 July 2011

Dear WMC Members, Promoters & Gyms,

On behalf of the World Muaythai Council and in my position as its President, I would like to proudly unveil the new and improved WMC logo.

The new logo features 2 major changes, the first of which is the design of the muaythai fighters depicted in front of the globe. The figures in the new design have taken on a more traditional concept and style to reflect the WMC's aim of maintaining the culture, historical roots and traditional aspects of the martial art form. Another major change is the single globe in place of what once were 2 overlapping globes. This modification seeks to illustrate more clearly the motto of the WMC, One world – One muaythai.

You will also notice that the new design also follows a more simplified colour scheme for a more clean and minimal effect for greater impact.

I trust that you will all update your logo files and use this new logo for all your future art work.

Yours faithfully,

General Chetta Thanajaro
President
